

eVoucher 6.11

Importing Service Entries

Import Your Service Entries

Starting with eVoucher release version 6.6, attorneys can import service entries to a CJA-20/30 voucher from a file saved in comma-separated value (.csv) format. This allows attorneys using commercially available timekeeping and billing systems to create an output file from that system that can then be imported into the **Services** tab of a CJA-20/30 voucher—so attorneys don't have to manually enter each service line.

Exporting a .csv file from a timekeeping or billing system may not export to a correct format and may need to be customized to match the required format as illustrated in the sample spreadsheets provided. You can enter data directly into the sample templates manually or using copy/paste.

IMPORTANT NOTES:

- Court staff are not responsible for helping attorneys create or download .csv files.
- As a best practice, the Import Service Entries feature should be started on a new or empty CJA-20 voucher. If you have service lines already entered on a voucher, they will be overwritten with the data imported from the .csv file.

Step 1

On the Home page, expand the **Appointments' List** section and locate the appropriate appointment. Click the case link.

Step 4

The Services page appears. To view or download a sample .csv file, click the **sample spreadsheet** link. Click **Additional Information** to view instructions for importing time from a .csv file.

Basic Info Services Expenses Claim Status Documents Confirmation

Services

eVoucher now provides the ability to import service time entries exported from a law firm billing system and saved in Comma Separated Values (CSV) format. The CSV file must contain all required column headings and data types. Please download our [sample spreadsheet](#) for the correct column headings and service type values.

IMPORTANT: It is recommended to start with a blank voucher. Otherwise, all existing service entries on the voucher will be overwritten with the contents of the imported CSV file.

- Additional Information

Each service line entry must have data in the following columns:

- Date
- Hours
- Description
- Service Type (EXAMPLES: "16b" or "16b. Obtaining and Reviewing Records")

The following columns do not require data, but should be included in the header row:

- Doc#
- Pages

For additional information refer to the [eVoucher Online Help](#).

CSV file when opened in a text editor might look like this:

```
Date, Hours, Description, Service Type, Doc#, Pages
1/4/2021,1.0, Met with client, 16a. Interviews and Conferences,,
1/4/2021,.5, Reviewed Indictment, 16b, 4, 25
1/5/2021,1.2, "Hearing on Motion to Dismiss, including wait time", 15c,,
```

Note: The sample spreadsheet is in Excel format. Once the file is populated with data, it must be saved in .csv format. View the appendix to see the required columns and information for the .csv file.

eVoucher 6.11

Importing Service Entries

Step 5

Before you can import your .csv file, you must create and save it on your computer. The **Date**, **Hours**, **Description**, and **Service Type** fields are required for import. The **Doc. #** and **Pages** fields are optional for import, but may be required by your court.

When the .csv file is ready for import, click **Import Service Entries (.csv)**.

The screenshot shows the 'Services' tab in the eVoucher system. At the top, there are tabs for Basic Info, Services, Expenses, Claim Status, Documents, and Confirmation. The 'Services' tab is active. Below the tabs, there is a section titled 'Services' with a description: 'eVoucher now provides the ability to import service time entries exported from a law firm billing system and saved in Comma Separated Values (CSV) format. The CSV file must contain all required column headings and data types. Please download our [sample spreadsheet](#) for the correct column headings and service type values.' Below this, an 'IMPORTANT' note states: 'It is recommended to start with a blank voucher. Otherwise, all existing service entries on the voucher will be overwritten with the contents of the imported CSV file.' A link for '+ Additional Information' is provided. A red box highlights the 'Import Service Entries (.csv)' button. Below the button, there are input fields for Date (8/6/2021), Service Type, Doc. # (ECF), Pages, and Hours, with a note 'at \$155.00 per hour.' and 'Add' and 'Remove' buttons. At the bottom, there is a table with columns: Service Type, Date, Description, Hrs, Rate, and Amt. The table is currently empty, and a message says 'No data to paginate'. A 'Go to page:' field and 'View items per page:' options (10, 25, 50, 100) are also visible.

Note: The service types for the CJA-30 sample spreadsheet differ slightly to match the information needed for that document type.

Step 6

Your file directory browser opens. Click the correct .csv file, and then click **Open**.

The screenshot shows a file directory browser window titled 'Open'. The file 'CJA-20 Service Time Import.csv' is selected, and a red arrow points to it. The 'Open' button is highlighted with a red box. In the background, the eVoucher 'Confirmation' page is visible, showing the 'Import Service Entries (.csv)' button and the 'Add' and 'Remove' buttons.

Import Service Entries with Associates

To use the Import Service Entries feature on vouchers with associates, the lead attorney **MUST** import their entries first or they will overwrite the associate attorney's entries.

Step 1

The lead attorney imports their service entries to the voucher, leaving the field next to the associate's name set to the default **Not on Voucher** in the Associate's Info section, by following the steps in the Import Your Service Entries section above.

Importing Service Entries

Step 3

The Services page appears. To view or download a sample .csv file, click the **sample spreadsheet** link. Click **Additional Information** to view instructions for importing time from a .csv file.

Basic Info Services Expenses Claim Status Documents Confirmation

Services

eVoucher now provides the ability to import service time entries exported from a law firm billing system and saved in Comma Separated Values (CSV) format. The CSV file must contain all required column headings and data types. Please download our [sample spreadsheet](#) for the correct column headings and service type values.

IMPORTANT: It is recommended to start with a blank voucher. Otherwise, all existing service entries on the voucher will be overwritten with the contents of the imported CSV file.

- Additional Information

Each service line entry must have data in the following columns:

- Date
- Hours
- Description
- Service Type (EXAMPLES: "16b" or "16b. Obtaining and Reviewing Records")

The following columns do not require data, but should be included in the header row:

- Doc#
- Pages

For additional information refer to the [eVoucher Online Help](#).

CSV file when opened in a text editor might look like this:

```
Date, Hours, Description, Service Type, Doc#, Pages
1/4/2021,1.0, Met with client, 16a. Interviews and Conferences,,
1/4/2021,,5, Reviewed Indictment, 16b, 4, 25
1/5/2021,1.2, "Hearing on Motion to Dismiss, including wait time", 15c,,
```

Step 5

A dialog box appears, stating that the existing time entries on your current voucher will be overwritten when you upload your .csv file.

Note: To include any existing entries, you must manually enter them in your .csv file.

Click **Proceed** and continue by following steps 5–7 in the Import Your Service Entries section above.

Fix Errors in Your .csv File

Errors in the .csv file must be corrected and saved in the original .csv file before attempting another import. If there are problems with the .csv file, the error report displays errors.

Step 1

Import your .csv file. If your import fails, a message appears at the top of the page, indicating the number of errors found.

Appendix

Excel File

For the .csv file to be successfully uploaded to and accepted by eVoucher, it must contain a header row. If the first row contains data rather than headings, the data in row 1 is ignored. Sample spreadsheets containing the correct column headings and service type values for each voucher type are available in the online help.

Your Excel file should look similar to the image below, containing all four mandatory column headings: Date, Hours, Description, and Service Type. The **Doc. #** and **Pages** fields can be included as header rows; however, they are not required unless data is provided.

Note: Time entries containing values greater than a single decimal place are automatically rounded up or down to the nearest tenth. For example, 0.125 is rounded down to 0.1 and 0.75 is rounded up to 0.8.
